Full-Stack Web Developer

Full-Stack Web Developer with hands-on experience building responsive, accessible, and high-performance web applications. Proficient in React.js for frontend development, with strong backend expertise using Python Django to design secure, scalable APIs and server-side logic. Skilled in HTML, CSS, and JavaScript, with a focus on clean, maintainable code, effective problem-solving, and delivering intuitive, user-centered digital experiences. Strong communication skills and comfortable working independently or within collaborative teams.

TECHNICAL SKILLS

Languages & Frameworks

HTML5, CSS3, JavaScript (ES6+), TypeScript, Python, React.js, Next.js, Django, Django REST Framework

Styling & UI

Tailwind CSS, Bootstrap, Material UI, Responsive Web Design, Cross-Browser Compatibility, Web Accessibility (WCAG)

Backend & Databases

RESTful API Development, Authentication & Authorization (JWT), Database Design, PostgreSQL, SQLite, ORM (Django ORM)

Tools & Version Control

Git, GitHub, NPM/Yarn, API Integration, Agile & Scrum Workflows

Core Strengths

UI/UX Collaboration, Performance Optimization, Debugging & Testing, Code Reviews, Problem Solving, Clean & Maintainable Code

RELEVANT EXPERIENCE

Odili Okechukwu & Company — Web Developer / IT & Tech Support
2025 – Present

- Develop and optimize user-facing features for web platforms using Next.js and Tailwind CSS, ensuring performance, responsiveness, and brand consistency.

- Provide IT and technical support, including troubleshooting systems, managing software environments, and improving workflow efficiency.

- Participate in code reviews, debugging, and iterative development to maintain clean, scalable, and maintainable codebases.

- Collaborate with team members to plan and execute new features in a fast-paced environment focused on delivering quality digital solutions.

Trending ICTHUB (Remote)
Front-End Web Developer | March 2024 – Feb 2025

- Developed and maintained responsive, user-friendly web interfaces using **React.js**.

- Implemented reusable UI components and optimized application performance for smooth user experience.

- Collaborated remotely with designers and product teams to translate requirements into clean, functional front-end features.

- **Ensured cross-browser compatibility, mobile responsiveness, and adherence to modern frontend best practices.**

Lagos Country Club — Software Development Intern
2023 – Jan 2024

- Contributed to the development of cross-platform applications (web, mobile, and desktop) using modern JavaScript frameworks.

- Assisted in prototyping and implementing new product features, improving frontend performance, responsiveness, and accessibility.

- Participated in UX discussions, enhancing navigation flow, consistency, and overall user experience.

- Collaborated with senior engineers, gaining hands-on experience in writing modular, maintainable, and scalable codebases.

- Supported backend integration tasks and RESTful API consumption, strengthening full-stack development experience.

PROJECTS(Code Samples on GitHub)

DennisTennisAcademy — Luxury Tennis & Padel Coaching Website
[*denisstennis*](denisstennis)

A professional website built for Coach Dennis, founder of Dennis Tennis Academy, designed to simplify client engagement, session bookings, and brand visibility.

- Designed and developed the entire frontend from scratch using HTML, CSS, JavaScript, React, Bootstrap, and Supabase for backend services.

- Integrated booking and contact form APIs to streamline scheduling and inquiries.

- Created responsive layouts that present multiple coaching services clearly and attractively across all screen sizes.

- Ensured fast loading, clean UI, and intuitive navigation, resulting in improved accessibility and increased online engagement.

Sternehero — sternhero.vercel.app

- Developed the frontend for a German tech company's bilingual website to enhance global accessibility.

- Implemented multi-language support (English/German) using Next.js and Tailwind CSS.

- Ensured layout consistency and smooth toggling between locales, improving user experience.

City-Wide Property Manager — City-wide Property Platform

- Built a user-friendly property management platform for landlords and clients.

- Developed the full frontend using React.js, CSS, and JavaScript, ensuring clean UI and smooth navigation.

- Integrated Supabase for authentication, database storage, and real-time data updates, highlighting full-stack capabilities.

- Designed responsive layouts for seamless use across mobile and desktop devices.

- Focused on clarity, simplicity, and accessibility, making the platform intuitive for non-technical users.

EDUCATION

Michael Okpara University of Agriculture, Umudike — Abia State, Nigeria
B.Sc. (Hons) Computer Science — Second Class Honours
2018 – 2022
