Frontend Developer (React • Next.js)

Computer Science graduate specializing in building fast, responsive web applications with React, Next.js, and Tailwind CSS. Experienced in translating Figma/UI designs into reusable components, integrating REST APIs, and deploying production-ready applications with modern frontend tooling. Passionate about performance, clean UI architecture, and delivering real-world projects. Seeking a frontend role where I can contribute to building scalable digital products.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Redux, HTML5, CSS3

Backend (Supporting): Django, REST APIs, JWT Authentication

Tools & Deployment: Git, GitHub, Vercel, Netlify, Railway.

Odili Okechukwu & Company

Web Developer / IT & Tech Support

2025 – 2026

- Built and optimized frontend features using Next.js and Tailwind CSS, improving responsiveness and usability across company web platforms.
- Developed reusable UI components that improved consistency and reduced development time.
- Provided technical support and troubleshooting for internal systems, improving workflow efficiency.
- Participated in code reviews and debugging to maintain clean and scalable codebases.
- Collaborated with team members to plan and deliver new product features

Trending ICTHUB

Frontend Developer (Remote)

Mar 2024 – Feb 2025

- Developed responsive frontend features using React, improving usability across mobile and desktop devices.
- Built reusable UI components that reduced duplicate code and sped up feature delivery.
- Translated Figma designs into production-ready interfaces in collaboration with designers.
- Ensured cross-browser compatibility and mobile responsiveness.

Lagos Country Club Internship

Software Development Intern

Apr 2023 – Jan 2024

- Assisted in building cross-platform applications using modern JavaScript frameworks.
- Supported REST API integration and frontend feature development.
- Participated in UX discussions and improved navigation and usability.
- Worked with senior developers to write modular and maintainable code.

Nigerian Diaspora Tennis Development Forum LCC — React / Tailwind

<https://ndtdf.com>

- Developed and deployed a responsive corporate website for **NDTDf**, focusing on clean UI, performance, and accessibility.
- Built reusable React/Next.js components to ensure consistency across pages.
- Optimized page speed and mobile responsiveness for improved user experience.
- Collaborated with stakeholders to translate requirements into a production-ready website.

Dennis Tennis Academy

Coaching Platform — React / Tailwind

<https://www.denisstennis.com/>

- Built and deployed a responsive coaching website to streamline inquiries and session bookings.
 - Implemented booking and contact workflows that reduced manual client coordination.
 - Optimized performance and accessibility across devices.
-

City-Wide Property Manager

Property Management App — React / Supabase

<https://city-wide-q6gz.onrender.com>

- Built a property management platform for landlords and tenants.
- Implemented authentication and real-time data using Supabase.
- Designed mobile-first UI for responsive user experience.

CERTIFICATION

Education
